Residential Availability and Costs for Bountiful Fiber

(as of September 19, 2024 – subject to change)

Availability of Bountiful Fiber

Bountiful Fiber will be available in your neighborhood as installation of the network proceeds throughout the City. You can check availability for your home right now by visiting the following website and entering your address: https://mybountifulfiber.com/sign-up/#/start/

Monthly Residential Cost of Bountiful Fiber

The monthly residential cost of service on Bountiful Fiber depends first on the desired Internet speed choice and second, on the preference of Internet Service Provider (ISP). Let's look at 3 examples to illustrate the monthly cost to the residential subscriber:

Example 1:

Internet speed selection of ***250 Mbps***

ISP preference of ***Miles Broadband*** using rate for ***250 Mbps***

The **total monthly residential service cost** for this example using the selected speed of **250 Mbps** and ISP choice of **Miles Broadband** is calculated as follows:

ISP Charge ($34) + Bountiful City Infrastructure Fee ($38) = Total Monthly Cost ($72)

Internet speed selection of ***1 Gbps***

ISP preference of ***Xmission*** using rate for ***1 Gbps***

The **total monthly residential service cost** for this example using the selected speed of **1 Gbps** and ISP choice of **Xmission** is calculated as follows:

ISP Charge ($54) + Bountiful City Infrastructure Fee ($38) = Total Monthly Cost ($92)

Internet speed selection of ***10 Gbps***

ISP preference of ***Advanced Stream*** using rate for ***10 Gbps***

The **total monthly residential service cost** for this example using the selected speed of **10 Gbps** and ISP choice of **Advanced Stream** is calculated as follows:

ISP Charge ($155.95) + Bountiful City Infrastructure Fee ($44) = Total Monthly Cost ($199.95)
