14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

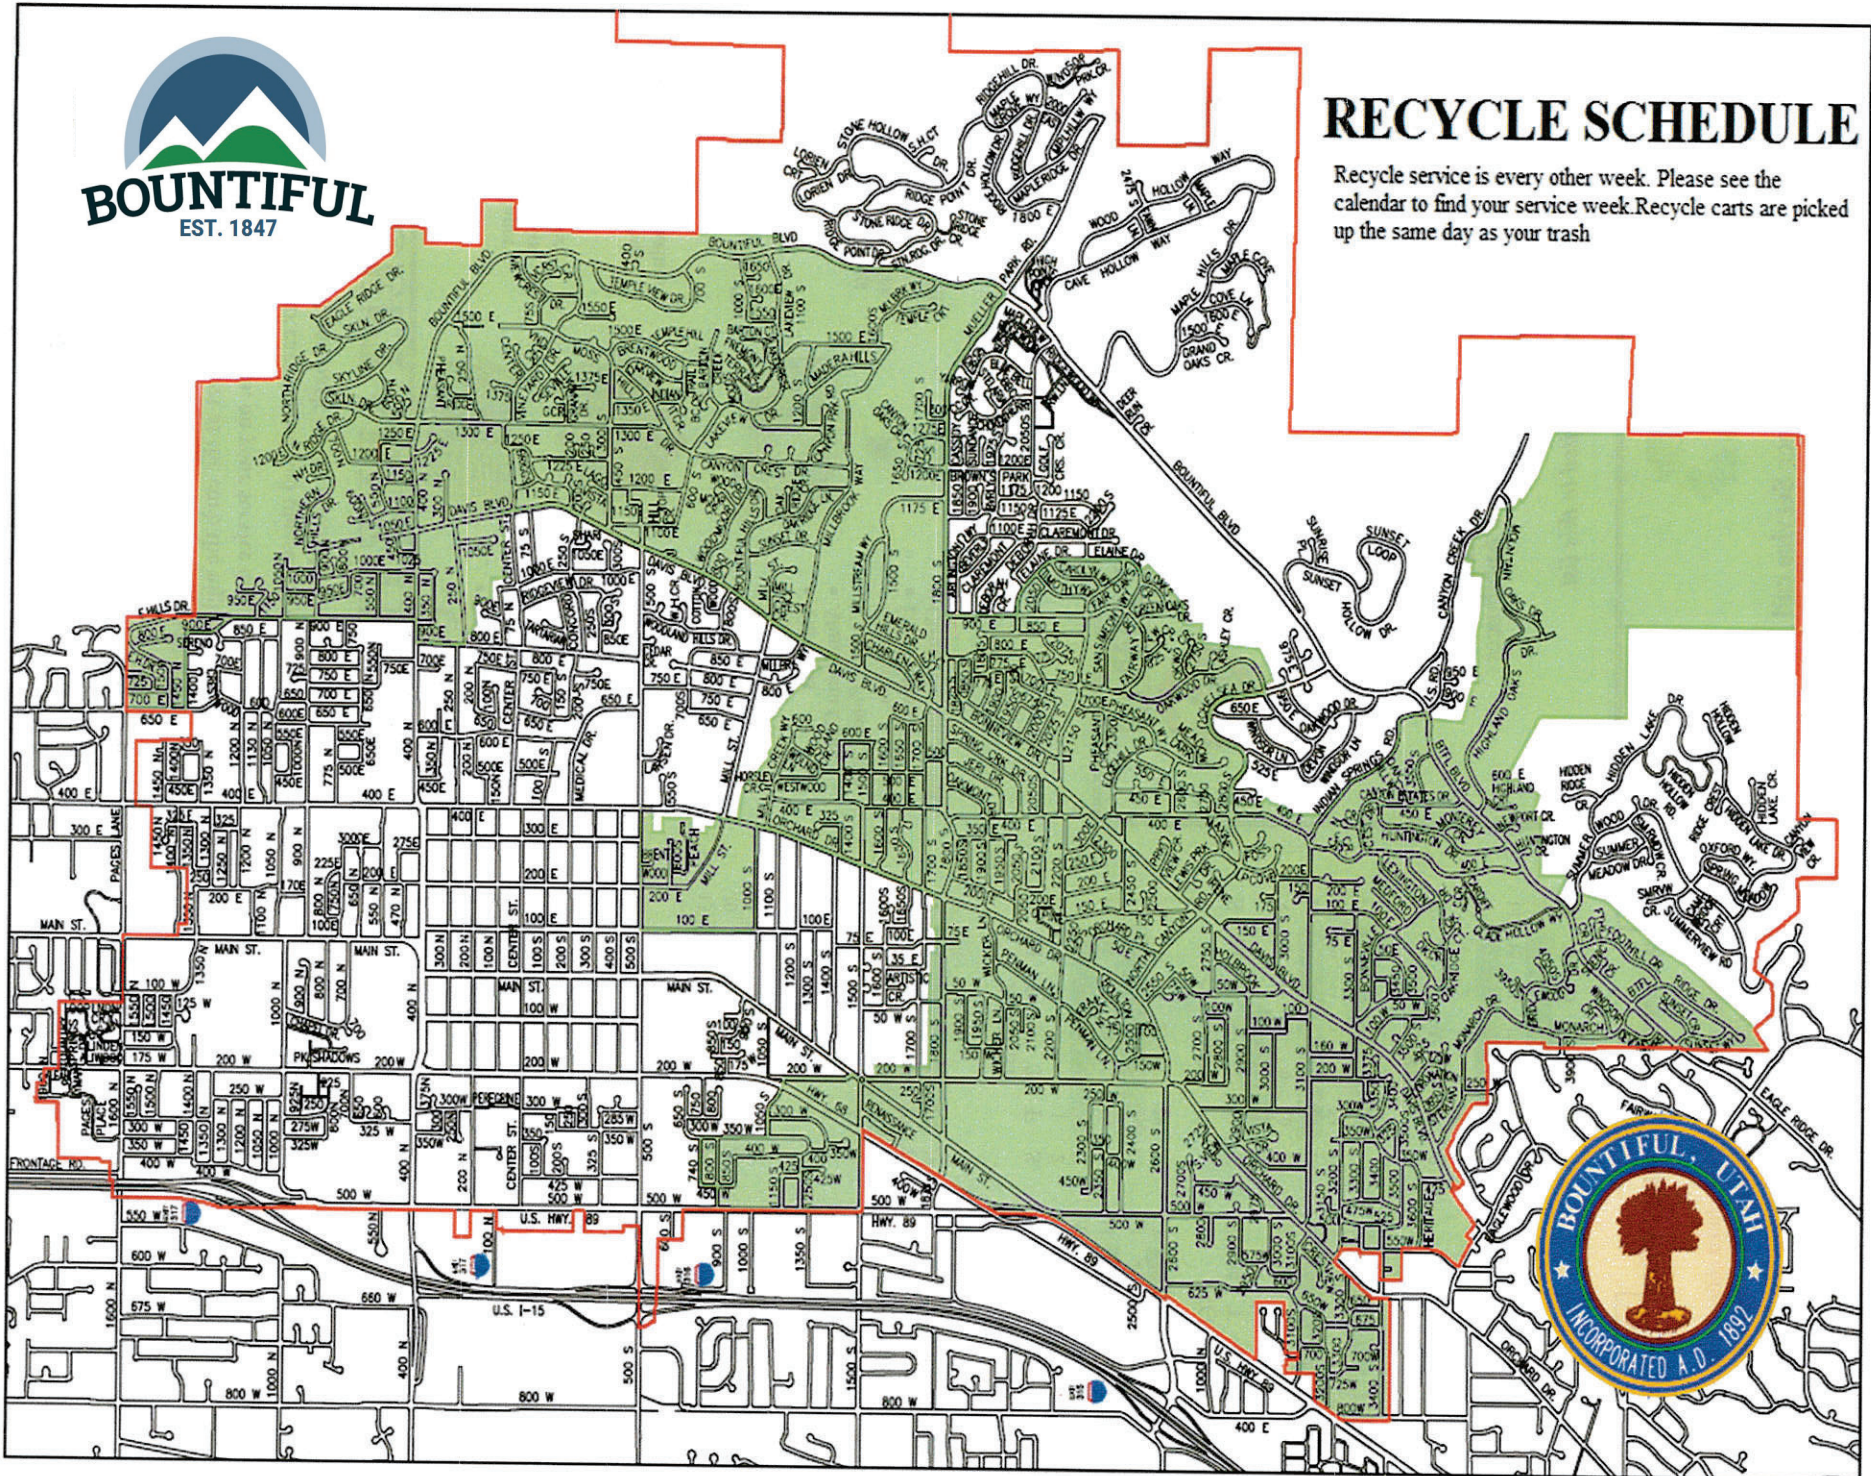

Recycle Collection occurs every other week on the same day as your trash service. You are assigned to a "Green Week" or a "White Week". Please see our map to determine your area's week. Your recycle cans will be picked up on the green or white week of the calendar as shown above. Please make sure all recyclables fit inside your recycling container with the lid closed and place your carts on the curb the night before or before 7 AM on your service day.

Holidays Observed in 2025: When your collection day falls on one of the following holidays; New Year's Day, Thanksgiving Day or Christmas Day (Dark red block) your collection will be delayed by one day as well as the remainder of the week with Friday's collection being done on Saturday as the light red shaded area shows. On all other holidays, garbage and recycling are picked up on your regular scheduled day! Please have cans out earlier than 7 AM so you are not missed!

RECYCLE SCHEDULE

Recycle service is every other week. Please see the calendar to find your service week. Recycle carts are picked up the same day as your trash

**Please Keep Your
Recyclables Clean**

When your recyclables materials are turned into a new product, nobody wants trash mixed into their new jacket, backpack, water bottle, soda can, can of peaches, newspaper or cardboard boxes.

Top 10 Reasons to Recycle

- 1. Good for our economy**
American companies rely on recycling programs to provide the raw materials they need to make new products.
- 2. Creates jobs**
Recycling in the U.S. is a \$236 billion a year industry. More than 56,000 recycling and reuse enterprises employ 1.1 million workers nationwide.
- 3. Reduces waste**
The average American discards seven and a half pounds of garbage every day. Most of this garbage goes into to landfills, where it's compacted and buried.
- 4. Good for the environment**
Recycling requires far less energy, uses fewer natural resources, and keeps waste from piling up in landfills.
- 5. Saves energy**
Recycling offers significant energy savings over manufacturing with virgin materials. Manufacturing with recycled aluminum cans uses 95% less energy.
- 6. Preserves landfill space**
No one wants to live next door to a landfill. Recycling preserves existing landfill space.
- 7. Prevents global warming**
In 2000, recycling of solid waste prevented the release of 32.9 million metric tons of carbon equivalent (MMTCE, the unit of measure for greenhouse gases) into the air.
- 8. Reduces water pollution**
Making goods from recycled materials generates far less water pollution than manufacturing from virgin materials.
- 9. Protects wildlife**
Using recycled materials reduces the need to damage forests, wetlands, rivers and other places essential to wildlife.
- 10. Creates new demand**
Recycling and buying recycled products creates demand for more recycled products, decreasing waste and helping our economy.
