

NOTICE TO BOUNTIFUL CITY UTILITY CUSTOMERS

Transfer from Light & Power Fund to the General Fund

State law requires that the City provide an annual disclosure on amounts transferred from utility Enterprise Funds to the General Fund. Historically, Bountiful has budgeted for the transfer of 10% of Electric Metered Sales (\$2,752,123) from the Light & Power Fund to the General Fund. This year, this transfer represents 6.9% of total budgeted expenditures in the Light & Power Fund.

	Dollar Amount	% of Expenditures
Transfer from the Power Fund to the General Fund	\$2,752,123.....	6.9%

These transferred funds are used each year to help cover the costs of important services like police, street maintenance and snow removal, fire and emergency medical services, parks, and similar City services. The utility transfer helps keep property taxes in Bountiful low. The transfers provide a means for reimbursement of the General Fund for services provided to non-property tax paying groups such as non-profit organizations, churches, and governmental entities. Viewed in another way, these transfers are a “dividend” to Bountiful taxpayers as the result of the taxpayers’ original investment in the City’s power infrastructure. If City utility services were provided by private utility customers, these dividends would instead be paid to investor-owners; because Bountiful taxpayers are the investor-owners, these dividends are used to offset what otherwise would be a significant increase in property tax rates.

A public hearing will be held on Tuesday, June 16, 2020 at 7:00 p.m. at Fire Station 81 located at 255 South 100 West, Bountiful. The public hearing will be to discuss the proposed transfer from the Power Fund to the General Fund. All interested parties are invited to attend.

Transfer from Landfill Fund to the Recycling Fund

State law requires that the City provide an annual disclosure on amounts transferred between utility Enterprise Funds. Bountiful has budgeted for the transfer of funds from the Landfill Fund to the Recycling Fund in the amount of \$127,595 to subsidize operations and avoid user fee increases to customers during a period of difficult global recycling market conditions. This year, the transfer represents 6.6% of total budgeted expenditures in the Landfill Fund.

	Dollar Amount	% of Expenditures
Transfer from the Landfill Fund to the Recycling Fund .	\$127,595.....	6.6%
