## ARE YOU PREPARED?

Preparation for an emergency event will sooner or later become critical for us all. Bountiful City's annual Emergency Preparedness Fair is scheduled for September 11, 2010 at Bountiful High School from 10:00 am to 2:00 pm. The date itself reminds us that unexpected emergencies do occur. This is a family event. There will be something of interest for all ages.

Utah is exposed to a variety of natural disasters such as floods, wild fires, severe weather, and earthquakes. We can't stop the emergencies but we can be better prepared for them.

The Preparedness Fair will include over 40 vendors and community service agencies. There will be demonstrations and special speakers to educate and motivate residents to do something more to further their preparedness.

For more information contact Curtis Tengan at 801- 294-5230.

## BOUNTIFUL CITY'S FALL CLEAN UP

**F**all cleanup is October 4 thru October 8, 2010. During that week city crews on your regular garbage pickup day will also remove trash and refuse which has been properly bundled, bagged or boxed. Limbs and trees must be cut, bundled and *tyed* in 5-foot lengths. Any bundles, bags or boxes must not exceed 50 lbs. Items such as old furniture or appliances should be placed on the drive approach or park strip, not on the street or sidewalk. Please place your items out by 7:00 a.m. on your garbage day.

Also, to assist you in your cleanup, the landfill will not charge a fee to the residents of Bountiful during fall cleanup week or the following week so trash that does not comply with the above restriction can be disposed of at no charge. We can no longer accept propane tanks or tires of any kind at the landfill.

**COMPLIANCE TO THE SPECIAL CLEANUP REGULATIONS IS MANDATORY. TRASH THAT DOES NOT MEET THE ABOVE**

### REGULATIONS NEEDS TO BE TAKEN TO THE LANDFILL BY THE PROPERTY OWNER.

In addition, Bountiful City will be conducting a **Household Hazardous Waste Collection Program on Saturday, October 9, 2010**, from 9:00 a.m. to 3:00 p.m. at the City's Maintenance Facility, located at 950 South 200 West in Bountiful. See the flyer that will be in your September utility bill for more details.

Household hazardous waste can be disposed of all year round by taking it to Integrated Waste Management District 1150 East North Hills

Dr. (Davis Landfill) Layton, Utah 84041  
801.614.5600

Garbage is picked up on all holidays except for Thanksgiving, Christmas and New Years Day. On those three holidays your garbage will be one day delayed with Friday's route being picked up on Saturday. Again, please have your containers out by 7:00 a.m. on garbage day.

## MAKE YOUR HOME SAFER

A typical Bountiful residence is filled with a host of dangers for tiny fingers and little mouths: flashing lights, enticing outlets, dangling cords and inviting buttons.

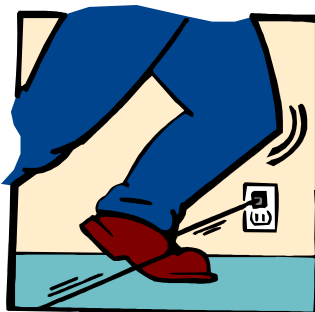

According to a report by the U.S.

Consumer Product Safety Commission (CPSC), about 2,400 children receive emergency room treatment every year for injuries caused by inserting objects into electrical outlets—an average of seven children a day.

The CPSC found 86 percent of reported home electrical injuries involved children 1 to 4 years old, with the highest frequency occurring at mealtimes. Particularly alarming, the report found that more than 70 percent of electrical incidents occur at home, with adult supervision typically present.

It only takes a split second for a naturally curious child to stick a finger or an easily accessible household item into an electrical outlet. Follow these safety tips to keep your kids safe:

- ◆ Teach your children not to put objects into outlets and not to touch anything with a cord attached
- ◆ Make sure all electrical outlets have face plates and that there are no open outlets in your home.
- ◆ Keep electrical cords in the house tied up or out of sight in high traffic areas. Tripping on cords is a safety and electrical hazard. Tie-backs and clips can be purchased to make sure cords are out of sight and out of mind.
- ◆ Show your children how to unplug cords when they are old enough. They should know to pull the cord out by the plug, and not by the cord.
- ◆ Be sure your children understand water and electricity don't mix. Appliances such as radios and hairdryers should never be used near a sink or bath.
- ◆ Install ground fault circuit interrupters (GFCIs) in any room with a water source within 6 feet of an outlet.
- ◆ Make sure every socket with a child's reach has a bulb in it, and that it is the proper wattage.

- ◆ Do not allow children to play with portable lamps and nightlights. Many have cartoon-like designs and a toy-like appearance, which can be attractive to children.
- ◆ Avoid using extension cords in a child's room whenever possible. Kids are liable to chew on them or pull on them, knocking over a lamp or appliance.
- ◆ Pay attention to children's access to baseboard heaters. Keep them out of sight, if possible, and create large play centers with their most interesting toys in the center of the room, away from the heater.
- ◆ Replace any damaged electrical cord
- ◆ Unplug all appliances when they are not being used. Keep them away from the edge of the counter—beyond a toddler's grasp—and keep the cords out of reach.
- ◆ Do not allow children to climb trees or fly kites unsupervised anywhere near power lines or electrical equipment.

~ Beth Holbrook, Bountiful City Council

"Evening in the Art gave Bountiful and South Davis County residents an opportunity to enjoy both exquisite art-work and a program of three of the finest soprano divas Utah has to offer. It was nice not to have to travel outside Davis County to participate in such an outstanding arts experience."
